

HEALTH AND BODY RESTORATION DISCLAIMER

We do not make any claims to heal, diagnose, or cure any disease or ailment. We are merely supplementing the body according to results of noninvasive testing and your symptoms.

The premise here is that proper nutrition supports your body and enables it to heal and repair itself, as opposed to just addressing symptoms.

This does not replace the advice or treatment given by your doctor or medical professional.

We do not advise anyone to discontinue their medications without the advice of a medical doctor. Therefore, we are not responsible for any reactions that occur, should you decide to discontinue your medications on your own.

In addition, we cannot be responsible for lower quality vitamin products you may take that are not the whole food supplements we use or recommend. We discourage you from taking any product that is not tested on your body.

Recommendations are based on the practitioner's training and experience, actual studies/research of trusted natural health authorities, and test results done in our office and by you at home.

If you write a success story from the wins you have received from your program, you give permission to publish it on this practitioner's website or newsletters, unless otherwise stated by you.

All success stories may not be typical as everybody is different and results will vary with compliance, or lack of.

We reserve the right to refuse or discontinue service to anyone and cannot guarantee any results.

I have read and fully understand this disclaimer.
